APPLIQUE TIE PATTERN: SUSPENDERS

(Print on Legal sized paper)

These are basic shapes for the suspenders used on the onesies. The length will depend on the size of the onesie used. They are 3/4 inch wide to match the width of the D rings. Measure your onesie to see how long of a strip you will need. Trace the shape onto your heat bond lite paper, leaving room in between for ironing and cutting.

1. Mark the line for your D ring. Sew 1/8 inch from the edge of the fabric, from the bottom and over the line you marked.

3. Finish by stitching 1/8 inch from the edge on top.

2. Move needle close to the edge and sew to lock in D ring.
